

Filling the Gap

Funding and resourcing

Here are a few links to companies or organisations which may help with funds or food or other resources.

www.asdafoundation.org/what-we-fund/top-up-funding (funding for FtG has been successful in some areas)

www.tescopl.com/little-helps-plan/places-communities/supporting-local-communities/ (follow the link to find your local community champion. Differing support from place to place)

www.coop.co.uk/local-community-fund (members can get money donated to their cause. Some local stores will also help with food donation)

www.morrisonsfoundation.com (match funding and grant funding available. Also local community champion or Store Manager will often help with food)

www.aldi.co.uk/about-aldi/corporate-responsibility/communities (not as developed as some of the others as they have chosen charitable partners but local managers will often help)

www.diy.com/corporate/community/waste-donation/ (unsaleable B&Q goods such as paint and other items which may be useful)

www.diy.com/corporate/community/local-support/ (also B&Q, offering support for events. This may be more of an activity support)

www.waitrose.com/content/waitrose/en/home/inspiration/community_matters.html (worth contacting if you are local to a Waitrose as they may consider you for one of their green token collections)

<http://fareshare.org.uk/> (Fareshare may be able to broker a relationship between your initiative and a local supermarket. This is definitely done with Aldi for example)

www.candocommunities.co.uk (worth a look at funding opportunities for all kinds of community initiatives)
